

The Department of Public Health has elevated the City's risk for Eastern Equine Encephalitis (EEE) from "**moderate**" to "**high**".

## **DRESS**

Dress in long sleeves and pants. This will help protect your skin from mosquito bites. Don't forget the socks!

## **DRAIN**

Drain or dump standing water. The most common mosquito breeding grounds are water in flower pots, gutters, pet bowls, inflatable pools, and birdbaths. Keep pools clean and chlorinated.

## **DEFEND**

Choose a mosquito repellent that has registered by the Environmental Protection Agency. Registered products have been reviewed, approved and pose minimal risk for human safety when used according to label directions. Repair holes in screens.

## **AVOID**

Avoid or adjust outdoor activities from dusk 'til dawn, around standing water, or in other mosquito friendly environments!
