Re: Lawrence Public Schools Proposed FY2018 Budget
Dear Mayor Rivera:
I am submitting a copy of the Proposed Fiscal Year 2018 Receiver's Budget for the Lawrence Public Schools. The proposed budget figure is $\$ 181,037,953$, which represents a request of $1.5 \%$ above the spending required by the City to meet its net school spending budget as required under the Chapter 70 formula.

Our FY'18 revenues, comprised of Chapter 70 state aid, as well as federal and state grants, represents a smaller increase over prior year revenues than in recent budget years. However, with continued work to streamline district expenses and build infrastructures to support schools with all upcoming mandates for on-line testing and reporting, we are continuing to allocate the vast majority resources to the schools in order to allow schools to maintain their current staffing and programming for the upcoming school year. In addition, the budget supports the next phase of the LHS Redesign and continues past investments in the following initiatives, at the school and district levels:

Phase III of the Lawrence High School Campus transformation - Implementation of the Upper School Pathways: The Upper School will implement their new college and career pathway, which establish industry-specific pathways to raise awareness around the multitude of career options in the Merrimack Valley, and allow students to explore and participate in personalized career pathways of their choosing. The pathway design is centered around "stackable" credentials students may amass in relation to these industry trends, including internships, college courses, professional certifications, and apprenticeships. This design will provide students with greater awareness and access to college and career opportunities matched to their passions and special skills. Industries being reflected in LHS career pathways, based on asset mapping, include: (1) Banking, Entrepreneurship \& Finance, (2) Health and Wellness (3) Performing and Fine Arts, (4) Public Service and Administration, and (5) Tools and Technology.

Expanded instructional time: All students in grades 1-8 will continue their expanded learning time, with several new enrichment programs taking hold across our schools. The LHS Campus will increase time for students in the upper school through off-site opportunities for students to complete internships, community service, work-study, and other educational offerings for high school credit. In addition, LPS will move into the third year of the LEAP preschool expansion program, which offers full-day, full-year programs for four-year olds in collaboration with The Community Group and Greater Lawrence Community Action Council - Headstart.

Family and community engagement: We will continue to improve our centralized enrollment process, with earlier registration starting in May, and increased support for schools and families with student transitions and connecting families, students, and schools with community resources.

School-based decision-making: Teacher leadership teams at each school have developed drafts of their schools' 2017/2018 plans along with their principals, tailoring their calendar, curriculum, and professional development to meet the needs of their students. These conversations are ongoing and individual school budgets will be updated with these plans as they are finalized.

If you have any questions about the proposed budget, please contact me.
Sincerely,

## Jeffrey C. Riley

Superintendent/Receiver

LAWRENCE

At LPS, our ultimate goal is to provide all students with a rich, high-quality education that mirrors the suburban experience and closes the achievement gap between our students and their suburban peers. We seek to achieve this through a common vision for high-quality instruction, a re-imagined urban school system, and collaboration with the Lawrence community.

## What do we want for our students?

## Vision for Students: Four Pillars of High-Quality Teaching \& Learning

LPS schools share a common vision for excellent teaching and learning. By embracing the district's Four Pillars, our schools support students to successfully graduate from college or enter the workforce:

Rigorous Standards. Rigorous, common core-aligned curriculum standards to ensure our students are learning appropriate content to stay on track at their grade level.

High-quality Enrichment. Access to rich programs such as the arts, musical theater, step dancing, and robotics. These activities increase student engagement and impart critical social and life skills.

Effort / Mindset. Demonstrating to students that hard work matters and that effort directly translates into increased proficiency.

Critical Thinking. Working to improve the quality and rigor of classroom lessons, moving beyond textbook teaching to higher-order activities and lessons that engage students at a deeper level.

## How will we get there?

## Reimagining the School District: Open Architecture

Superintendent Jeffrey C. Riley has developed a new model for managing the school system called open architecture. Under this model, LPS has cleared out bureaucratic, one-size-fits-all policies at the central office and given all schools an unprecedented level of autonomy over educational decisions.

The open architecture approach allows for a variety of school types within the district. Of the district's 26 schools, which now includes Lawrence High School in place of the seven individual schools that were previously part of the campus, 22 are traditional schools, while four are turnaround schools that have adopted an innovative model and are managed by non-profit organizations. All of the district's schools, including schools operated by a management company, are AFT unionized, neighborhood-based, and follow a common set of policies to ensure a fair, supportive system for LPS students, families and staff. There are no "carve outs"-all schools play by the same rules on a level playing field.

District and union leadership have embraced a model that shifts the power to the schools, where principals and teacher leadership teams design school programs to best meet their students' needs. Each school team sets its own curriculum, calendar, and professional development, while school leaders have full budget and hiring autonomy. Central office assumes a support role, managing operational tasks so school leaders can focus on teaching and learning.

LAWRENCE
The district's ultimate goal is for each Lawrence school to provide students with a rich, high-quality education that enables them to graduate from college or enter the workforce at comparable rates to their suburban peers. To achieve this goal, our schools share a common vision for excellent teaching and learning, which we call the "Four Pillars."

## Lawrence Public Schools' Four Pillars of High-Quality Teaching \& Learning:

## I. Rigorous standards are the foundation for student achievement.

In Lawrence, we believe in providing our students with a standards-based education. We use the Common Core State Standards and assessments as guideposts on our students' journey from kindergarten to college. Our schools leverage data to guide practice, personalizing the learning for our students as much as possible. The result is a district committed to rigorous standards that support individual student growth towards graduation.

## II. High-quality enrichment opportunities engage students and create well-rounded learners.

LPS schools provide a wide variety of enrichment opportunities, allowing our students to explore their interests and expand their horizons. Many schools offer these activities on site, either during or after the school day, including in such areas as robotics, step dancing, musical theater, intramural athletics, and instrumental and choral music. Other schools partner with community organizations to offer students specialized programs at their facilities in areas such as swimming, karate, or yoga.

## III. All students can achieve at high levels if they believe that hard work can drive success.

At LPS, we believe that with focused and sustained effort, all students can excel in school and reach their potential. Our educators instill the value of hard work in our students, including encouraging them to put in extra hours through expanded school days, February and April acceleration academies, after-school clubs, or Saturday programs. In our schools, we communicate a "growth mindset": that intelligence is not just something you have; it's something you can develop with hard work.

## IV. Critical thinking skills prepare students for success in college and the workforce.

A Lawrence Public Schools education equips students to think deeply and critically about information. Our educators seek to build our students' confidence to apply concrete knowledge they have learned in new and novel situations. This kind of critical thinking is essential to achieving excellence in college and the workplace, where accumulated knowledge serves only as the starting point for success.

Although each school in Lawrence sets its own academic program, the entire LPS community shares this common vision of the Four Pillars of High-Quality Teaching and Learning. This is what makes Lawrence unique we are a district of self-directed schools with individual plans for innovation and growth, yet all working to achieve a common vision for our community's students.

## LAWRENCE

The Lawrence Public Schools Fiscal Year 2018 appropriation request is $\$ 181$ million, supported mainly from state aid. Over 95 percent of Lawrence's school department budget is supported by state aid.

## Net School Spending

The City of Lawrence will receive $\$ 179.8$ million in Chapter 70 aid in Fiscal Year 2018, an increase of $\$ 1.4$ million from Fiscal Year 2017. The City will contribute an additional $\$ 9.4$ million amount to meet the $\$ 189.2$ million net school spending requirement.

The Education Reform Act of 1993 established the Chapter 70 funding program, creating education spending requirements for school districts to prevent or alleviate funding inequities. Annually, the Massachusetts Department of Elementary and Secondary Education determines the spending requirements for each municipality to fund an adequate level of education, known as net school spending. There are two main factors that determine our net school spending level: (1) enrollment as of October 1 of the prior year and (2) per pupil rates.

1. Enrollment as of October 1 of the prior year: The State uses enrollment counts as of October 1 to determine funding levels for the next year's budget. Enrollment increased after a dip in 2017, which resulted in an increase in the FY18 Chapter 70 allocation. Higher enrollment was noted at the high school grades, in part, due to the success of graduating students in four years and reducing the dropout rate.

Revenues
LAWRENCE

2. Per pupil rates: The State multiplies the October 1 enrollment counts by a per pupil rate for different student characteristics and adjusts for an inflation factor. For Lawrence, the annual budget per pupil revenue increase for FY 2018 was a minimal one over the FY 2017 rate, which was also a small increase from FY 2016.

For Fiscal Year 2018, Lawrence's net school spending is $\$ 189.2$ million. Net school spending is the minimum required amount the municipality must spend on all students attending public schools. This includes students in district, charter, choice, vocational, special education private schools, and residential placements. After Lawrence receives its net school spending amount, the first step is to deduct payments to other districts or charter schools that serve Lawrence students. In FY2018, the charter school tuitions amount, as offset by the partial reimbursements received for new students, is $\$ 19.3$ million. In addition, for students who choose to attend schools in other districts that offer choice, Massachusetts will provide up to $\$ 5,000$ per student to the receiving district and deduct it from the sending district's allocation. In FY2018, the cost of school choice to Lawrence will be $\$ 428,149$.

LAWRENCE

The State allows municipalities to claim related services as contribution towards net school spending (administration, facilities, etc.). In FY2018, LPS projects this cost to be $\$ 1.8$ million that the City will use to offset its costs.

## Adult Education and Transportation

Costs for adult education and transportation are excluded from net school spending. For FY2018, LPS is projecting transportation costs at $\$ 9.1$ million and adult education costs at $\$ 1.2$ million. The municipality is responsible for paying for these services. Lawrence Public Schools transports high school students, students with disabilities and homeless students who live out of the city. The majority of our transportation costs ( $\$ 7.1$ million) are due to transporting students with disabilities, homeless students, and students in foster care under the new ESSA requirements, while the remaining $\$ 1.3$ million accounts for transporting our students to the high school campus. The cost of transportation services has increased due to a new contract for transporting students with disabilities and additional costs for transporting students in foster care under the new ESSA provisions.

## Cost of transporting homeless students

FISCAL YEAR 2018 BUDGET SUMMARY
Revenues
LAWRENCE

## Federal and State Grants

Lawrence Public Schools receives a variety of federal and state grants to support programs across our schools. These grants come in the form of entitlement and competitive grants based on poverty, students with disabilities, English language learners and chronically underperforming schools.

Recurring grants are those grants that LPS receives based on its population through a formula. LPS has historically received these grants annually for more than five years. Recurring grants comprise approximately two-thirds of all grant revenue for LPS. The largest of these grants are Title I and Title IIA. Title I provides financial assistance to districts with high percentages of children from low-income families. Title IIA's goal is to improve the overall effectiveness of all educators through activities that focus on educator effectiveness. Both of these grants are allocated based on census information for Lawrence. LPS projects to receive $\$ 13.7$ million in recurring grants for Fiscal Year 2018, a decline of $\$ 500$ thousand from Fiscal year 2017.

|  | FY2016 | FY2017 | FY2018 | Variance | \% <br> Change |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Recurring State and Federal Grants |  |  |  |  |  |
| Title I/IIA | $\$ 9,144,885$ | $\$ 8,621,473$ | $\$ 8,538,969$ | $-\$ 82,504$ | $-0.9 \%$ |
| IDEA | $\$ 3,606,870$ | $\$ 3,607,694$ | $\$ 3,595,540$ | $-\$ 12,154$ | $-0.3 \%$ |
| Title III | $\$ 774,305$ | $\$ 694,185$ | $\$ 682,178$ | $-\$ 12,007$ | $-1.7 \%$ |

FISCAL YEAR 2018 BUDGET SUMMARY
Revenues

## LAWRENCE

LPS also receives one time and multi-year competitive grants. Some of these grants are school specific and others apply district-wide. LPS projects these grants to decline by $\$ 387$ thousand, $8.8 \%$, in FY18. This decrease is mainly due to the expiration of ELT and $21^{\text {st }}$ CC Grants. The decline does not appear as steep because LPS is receiving a new multi-year grant, the SRG to support the redesign for Lawrence High School.

| One time grants | FY2016 | FY2017 | FY2018 | Variance | \% Change |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Expenditures

## Account Summary

After examining where our funds are controlled, it is important to examine what LPS buys with its funds. The account summary provides this level of information by showing how funds are spent across the following accounts:

Salaries (51000) - This account includes all salaries for employees in LPS, including teachers, paraprofessionals, custodians, principals, safety officers, clerks and administrators
Stipends / overtime (51100) - ELT stipends, extra duty, leadership stipends and overtime are included in this account
Benefits (5700) - The district provides benefits to its employees including health insurance, retirement, unemployment and workers compensation
Operating Expenses (5400) - General supplies and materials are included in this account
Educational Expenses (5500) - Textbooks, educational materials and photo copier supplies are included in this account
Purchased Services (5300) - Contracted services are in this account, including out-of-district tuition payments, transportation and field trips, contracted therapeutic services and computer software
Utilities and maintenance (5200) - Heat, electricity, water and sewer charges, and repairs and maintenance to school buildings fall under this category

For FY2018, $80.8 \%$ of our budget is being utilized to fund personnel, including salaries, stipends and benefits.

## LAWRENCE

The key driver in funding and cost is student enrollment. LPS enrollment increased this year after a slight decline in 2015, which was the first decline in since 2009.

By grade level, enrollment is increasing at the elementary and middle school levels to their historic peaks reached in the late 1990's and early 2000's. High school enrollment has been steadily increasing over the last decade.

We expect enrollment to increase in the coming years in the north central area of the city and at the high school level. With the need to address facility and space constraints in these areas, we have worked with the City to file applications

## School Profiles

Schools are arranged by grade span (early childhood centers, elementary, middle, K-8 and high schools). As we transition to a new unified Lawrence High School, the budgets for the individual academies are represented in one profile.

Student demographic and enrollment information is from October 1 as reported on the Massachusetts Department of Elementary and Secondary Education's website. Academic performance information is also from the MA DESE website.

Budget information includes all recurring revenue and one-time revenue. Recurring revenue (General Fund, Title I, IDEA, Title IIA and Title III) is included on the school profiles and shown by account. One-time revenue, such as School Redesign Grants or $21^{\text {st }}$ Century grants, is also included in the school profiles and is also highlighted as "Special Grants."

Position information for the 2017 comparison is based on the revised budget for FY2017. Position information for FY2018 is based on any known changes at this time, but is subject to change as schools and central office departments finalize budgets over the next couple of months.

Please note that budget and staffing information are based on known information. Schools may continue to amend or adjust their budgets with their Teacher Leadership Teams and those changes may not be reflected in these pages.

## Central Office/School-based Services

The Central Office budget is being provided by department with details as to the budget accounts and staffing. Schoolbased services are those services that are provided directly to students or schools but coordinated and managed centrally, such as: communications, media services, technology infrastructure and support, special education staffing and ancillary service providers, family and community engagement, grant management, and reporting and compliance with state and federal regulations and mandates. Similar to schools, budgets include all revenue, including recurring revenue and one-time revenue. Recurring revenue (General Fund, Title I, IDEA, Title IIA and Title III) is shown by account. One-time revenue, such as Preschool Expansion, is also included in the profile and is also highlighted as "Special Grants."

Benefit costs for schools, central office and school/student services are allocated on a per FTE basis. The information may not equal the exact amount budgeted for benefits but is meant to show the approximate cost of health insurance, retirement, unemployment and other benefit costs for the FTEs in each school and department. In FY2018, LPS is projected to spend approximately $\$ 14,460$ per FTE. In FY2017, LPS spent approximately $\$ 14,085$ per FTE.

Some of the totals in the school and central profiles may be off due to rounding.

Note: In addition to receiving a city appropriation for adult learning, ALC receives an adult learning grant that funds the remaining cost of this program.

Adult Learning Center does not have demographic and academic information because it is an adult education program, not a K-12 school.

## Description of Services and Supports

Central Office departments provide support to the schools in four key areas: Administration, Operations, School Support, and School-Based Services and Supports. Below is a description of the services provided, in each of these areas, by the central office personnel?

Administration: There are several administrative functions provided to schools including communications, which includes management of the LPS-TV station and website; data analysis and accountability; and state and federal reporting and compliance management. In addition, the support includes Academic Fellows, who are training for leadership roles in LPS schools.

Operations: Operational departments support students and staff by providing services to schools including: maintaining and repairing our facilities; providing IT services and maintaining technological infrastructure; procuring goods, paying bills and processing payroll; onboarding employees, maintaining staff records, hiring and assigning substitutes, and administering employee benefits; and coordinating security and safety personnel across schools. Transportation and safety costs are for the administration of these services.

School Support: Central Office departments provide academic, programmatic, and talent services to individual schools and manage a select number of district-wide programs. These supports include administrative support and oversight of special education services; academic advising, coaching, and professional development for staff and school leaders; student, family \& community engagement services, such as: enrolling students, providing support to families, and liaising with community organizations; coordination of summer school programs; student reengagement to prevent and recover dropouts; staff recruitment; and managing district-wide talent programs, including: the Sontag Prize in Urban Education, Teacher Leader Cabinet \& the Advanced and Master Educator program.

School-Based Services and Supports: There is centralized coordination of numerous direct services for students, staff and schools. These services include: supporting and monitoring Individualized Education Programs (IEPs) for identified students; providing psychological and therapeutic evaluations and services for students referred for evaluations or identified with specific needs; providing classroom-based supports, such as one-to-one paraprofessionals, as needed; transporting high school students, homeless students, and students with disabilities; tuition for out-of-district placements for students with disabilities, when needed; and enrichment and intermural programs.

The detailed departmental budgets are reported on the following pages.
