FY'2013 Proposed Budget

April 30, 2012

FY'13 Budget Goals

- 1) Allocate resources to schools based on their status and targeted needs to rapidly accelerate achievement for all students.
- 2) Expand supports and enrichment opportunities to reduce the achievement and opportunity gaps for all groups of students.
- 3) Bolster standards based instructional initiatives, focusing on rigorous instructional practices across all content areas and grade levels, to provide for higher levels of student engagement and ensure college readiness for all students.
- 4) Build stronger data teams in schools and at the Central Office to analyze, interpret, and use data to inform decisions around instructional programming, interventions, and program development. .
- 5) Reinvent parent and community engagement strategies to increase information sharing and parent/community member engagement at all levels of the school system: School Leadership Teams, district subcommittees, volunteer programs, PTO's, etc.
- 6) Continue to enhance safe and supportive learning environments in our schools through the expansion of wraparound services, academic safety nets, and extended day programs for students through partnerships with more community agencies to provide school-based activities that support learning opportunities for all students.

FY'13 Budget Format

The FY'13 Lawrence Public Schools' Budget is in a new format. The new format is the recommended format by the Massachusetts Association for School Business Officials (MASBO) and aligns more closely with the format for budget submissions by other City Departments.

The budget presents staffing for each school and department along with three funding categories: salaries, operating expenses, and fixed costs:

- ❖ Salaries reflect the costs for all staff salaries, stipends for extra curricular activities, and extra duty for extended day programs
- ❖ Operating Expenses cover educational materials, office supplies, textbooks, field trip transportation, and contracted services for professional development or student services
- ❖ Fixed Costs cover:
 - Utilities at the schools and central office
 - Employee Benefits (unemployment, health insurance, workers compensation, increments or tuition reimbursement, and the Employee Assistance Program)
 - Leases (building, vehicle, technology)
 - Insurance (building, vehicle, and professional liability)
 - Special Education Tuitions
